**ORDER REGARDING
ADMINISTRATIVE MOTIONS**

17 This order addresses several administrative requests relating to four pending summary
18 judgment motions. An April 14 order denied a prior motion to seal filed by the County without
19 prejudice to a more narrowly tailored sealing request. The County has now filed an amended
20 request to seal exhibits designated as confidential by state statute or court, and references
21 thereto in its motion (Dkt. No. 55). The amended request, being narrowly tailored, is
22 **GRANTED**. The City filed a request to seal four exhibits designated as confidential in the state
23 proceedings (Dkt. No. 53-5). The request is **GRANTED**. Plaintiff also submitted a request to
24 file two such confidential exhibits under seal (Dkt. No. 66). The request is **GRANTED**. Finally,
25 plaintiff filed a renewed request for permission to exceed the page limit by four pages (a
26 previous, larger request having been denied). The limited renewed request is reasonable under
27 the circumstances and is **GRANTED**. Defendants may similarly utilize up to five additional
28 pages in their opposition briefs if need be. There will be no additional pages in the replies.

Dated: April 23, 2009.
